AIDEN MORI
Full Stack Developer

✉ aiden77mori@gmail.com   🌐 *https://aiden77mori.github.io/aiden-portfolio*

Summary

I am a **web and smart contract** developer with a strong attention to detail and experience **leading teams** of front-end, back-end, and smart contract developers. My portfolio includes a variety of successful **DeFi**, **NFT marketplace**, and **web3 projects**, as well as **games** built on Ethereum, Polygon, and Binance Smart Chain. As a proficient developer, I have an extensive understanding of programming languages, frameworks, and database structures, and am skilled in **analyzing and resolving intricate problems**. I am dedicated to keeping up with the latest technology trends and committed to delivering quality work, making me an invaluable addition to any team.

Experience

Development Team Lead on The Blockchain Projects, KURONURI, Remote   *Dec 2021 - Present*

- As a blockchain **development leader**, I've created over **4** advanced products that integrate blockchain technology with **real-world industries**, providing users with significant value and benefits.

- Led a team of 5 developers in designing **intuitive interfaces** and implemented **MLM system** that resulted in a 30% increase in user retention and a **20%** increase in referrals.

- Have developed **intelligent algorithms** and **predictive models** that seamlessly integrate with blockchain systems using **AI technology**; increased **30%** efficiency and accuracy in delivering results.

- Accomplished in building one comprehensive **DeFi ecosystem**, **token generation** and **token IDO** platforms, as well as developing **2 NFT marketplaces** including **over 15 Web3 projects**.

- Experienced in developing and integrating more than **5 Play-to-Earn games** based on blockchain technology, and successfully created a **Metaverse** platform that has gained widespread user appeal.

Full Stack Developer, INCARTA (Part-Time), Australia   *July 2019 - Oct 2021*

- Through the utilization of innovative approaches to enhance patient monitoring and care, healthcare providers can access real-time data on patients' physiological parameters, which facilitates informed decision-making on the treatment options and leads to a remarkable **25%** increase in patient care.

- Achieved significant improvements in healthcare connectivity and integration by focusing on enhancing **INCARTA**'s leading clinical records platform, **Alarta** (one of the most advanced cloud-based critical care medical record systems) and successfully integrating **BioBeat** with **HL7 platform**.

- Had remained at the forefront of emerging trends in the field, including **AI** and **machine learning**, and have a proven track record of leveraging these technologies to drive continuous improvement in patient care.

- The project that I'd worked here has been especially useful during the **COVID-19** pandemic, where virtual consultations and remote patient monitoring have become increasingly important.

Front End Developer, OpenAgent (Contract), Australia   *Nov 2017 - Apr 2019*

- Contributed to the simplification of the home selling process, which can be a source of stress for many people, resulting in significant value-addition to users in their home selling journey as a developer on **Australia's #1 real estate agent comparison site**.

- Improved the website's **user interface** and **optimized its speed**, resulting in a **35%** speed improvement and a **20%** increase in user engagement.

- Collaborated with the **data science team** to develop **algorithms** that matched over **80%** of our platform's users with top-performing agents, as a result, **25%** increase in customer satisfaction.

- I am proud to have contributed to this project and look forward to applying my knowledge and experience in my future career endeavors.

Software Engineer, Le Grand Co, Ltd (Internship), Japan   *Apr 2016 - Apr 2017*

- Collaborated on an exciting content marketing and **SEO project** during my **Legrand** internship, resulting in a **40%** increase in website traffic within the **first month** of implementation.

- Acquired valuable hands-on experience in digital marketing and software engineering at Legrand, working with a passionate and talented team committed to delivering high-quality services to clients.

- Overall, had a rewarding Legrand internship experience, working on various digital marketing and software engineering projects while developing skills and knowledge in the field.

Education

Osaka University   *Apr 2013 - Mar 2016*

- Bachelor of Engineering

Skills

- Javascript
- Typescript
- React.js
- Angular

- Solidity
- Python
- Web3.js
- Node.js

- Express.js
- React Native
- Ionic
- Flutter
